

**Grants by Grant Cycle****Grants matching your search for 2016-17 Tire Incentive Program (TIP4)****Butte County****Grantee:** Van Duerr Industries, Inc. dba SafePath Products Inc.**Amount Awarded:** \$159,124.00**Grantee Contact:** Ms. Kelly Morabito**CalRecycle Grant Manager:** Nicholas Amante

Project Summary: Requesting funds from the TIP4 Grant Program to manufacture new and existing products made from California recycled tires. SafePath will be manufacturing various products for the architectural marketplace for ADA compliance in public building, schools, and businesses, including city sidewalks and other path of travel access points in an effort to remove vertical barriers in our environment to allow for safe and accessible access. This grant application includes various ramp transition products, ADA landings, flat floor stock material and flooring and field reducers to provide access and code compliance. We anticipate using over 2 million lbs. of crumb tire rubber during this grant cycle. We are just starting production in Northern California, the first production facility in this area of the state.

*Total Awarded for County: \$159,124.00***Fresno County****Grantee:** MBTechnology**Amount Awarded:** \$117,736.00**Grantee Contact:** Mr. Bahman Behbehani**CalRecycle Grant Manager:** Nicholas Amante

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: Ecotorch is line of roofing membranes manufactured by MBTechnology containing recycled tire. Our goal has been to introduce ecotorch to smaller contractors. By obtaining the grant we should be able to offset some of our production cost, market this product more aggressively, and expand outside CA. We will be doing more advertisement with trade associations and also demos at distributor yards.

*Total Awarded for County: \$117,736.00***Los Angeles County****Grantee:** Three D Plastics, Inc.**Amount Awarded:** \$496,860.00**Grantee Contact:** Frank Dvoracek**CalRecycle Grant Manager:** Nicholas Amante

Project Summary: We will use funds provided by TIP4 to increase sales of our traffic safety products that utilize crumb rubber bases. Grant funds help us to offset cost of freight to distant markets and to maintain or increase sales to customers who might otherwise buy products using Canadian rubber. The Grant funds will allow us to bring the 28 inch Traffic Cone to market.

*Total Awarded for County: \$496,860.00***Orange County****Grantee:** TrafFix Devices, Inc.

Amount Awarded: \$499,452.00

Grantee Contact: Bob Wielenga

CalRecycle Grant Manager: Nicholas Amante

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: The products included in this Grant submission are primarily recycled crumb rubber traffic control delineator product bases and a new product crumb rubber base for a roof edge delineator to aid in the safety of people working on commercial and residential roofs. The estimated annual amount of California Recycled Tire crumb rubber we expect to use is 2,497,260 lbs.

Grantee:Environmental Molding Concepts LLC

Amount Awarded: \$263,479.00

Grantee Contact: Mr David Higgins

CalRecycle Grant Manager: Nicholas Amante

Project Summary: Rubber tiles produced from California recycled tire rubber. Marketed under the brand names DeckTop, SportPlay, Paver Tile and EquiTile. This grant request includes approximately 566,000 pounds of crumb rubber utilized in producing these rubber tiles.

Grantee:Mission Rubber Company LLC

Amount Awarded: \$118,515.00

Grantee Contact: Mr. Donald Wrixon

CalRecycle Grant Manager: Nicholas Amante

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: Mission Rubber Company LLC is owned by MCP Services LLC located at 708 South Temescal Suite 101, Corona CA 92879. Our products can be grouped into construction materials and are sold into some of the largest building construction projects in the USA and Canada. Today's construction industry favors "green products" that utilize recycled materials, environmentally friendly components and products that are produced with a low energy footprint. Mission Rubber works with Cradle to Cradle, the Green Building Council, and LEED's credit organization to ensure its products meets today's strict requirements. By utilizing crumb rubber from tire in 4 of our product lines we can remain price competitive while meeting the needs of our customers and concerned citizens. While the market desires "Green" products we have found that these products only sell when priced the same or lower than competing products. By utilizing crumb rubber from California tires and receiving the anticipated grant incentives we can offer these products at a rate that the market will consume. We began including the 30 mesh crumb rubber in three of our product groups under TIP2 in 2015. We are introducing 30 mesh crumb rubber into two more product lines, the End Cap/Specialty products, in 2017.
